

## GripGuard

### Grit surface matting with outstanding anti-slip properties

- Mineral coated matting provides a 'super-grip' standing surface.
- Effectively reduces the risk of slipping in wet or oily conditions.
- Conforms to Slip Resistance Test DIN 51130 Category R11.
- Durable and oil-resistant makes it suitable for heavy duty industrial locations.
- Also suitable for some kitchen/catering environments where spillage presents a danger.
- A flexible, yet tough mat that can be easily rolled up and relocated.
- Low profile design sits almost flush to the floor surface reducing trip accidents.
- Easy to install and clean.
- Anti-skid backing holds the mat firmly in position.

## Technical Specification

<b>Surface Finish:</b>	Grit Surface
<b>Product Height:</b>	2.25 ± 0.2mm
<b>Operating Temperature:</b>	0°C to +40°C
<b>Product Performance:</b>	Conforms to Slip Resistance Test DIN 51130 Category R11
<b>Country of Origin:</b>	Taiwan

Sizes	Black	Weight
0.9m x 6m	GG010003	14.00 kg
0.9m x per linear metre	GG010003C	2.33 kg
0.9m x 1.5m	GG010002	3.51 kg
